I'd like to thank my teachers from Clevered, for helping me throughout the internship so far, thanks to them being very approachable, I've been able to ask my doubts and ask for help with my project. I look forward to learning more about AI.

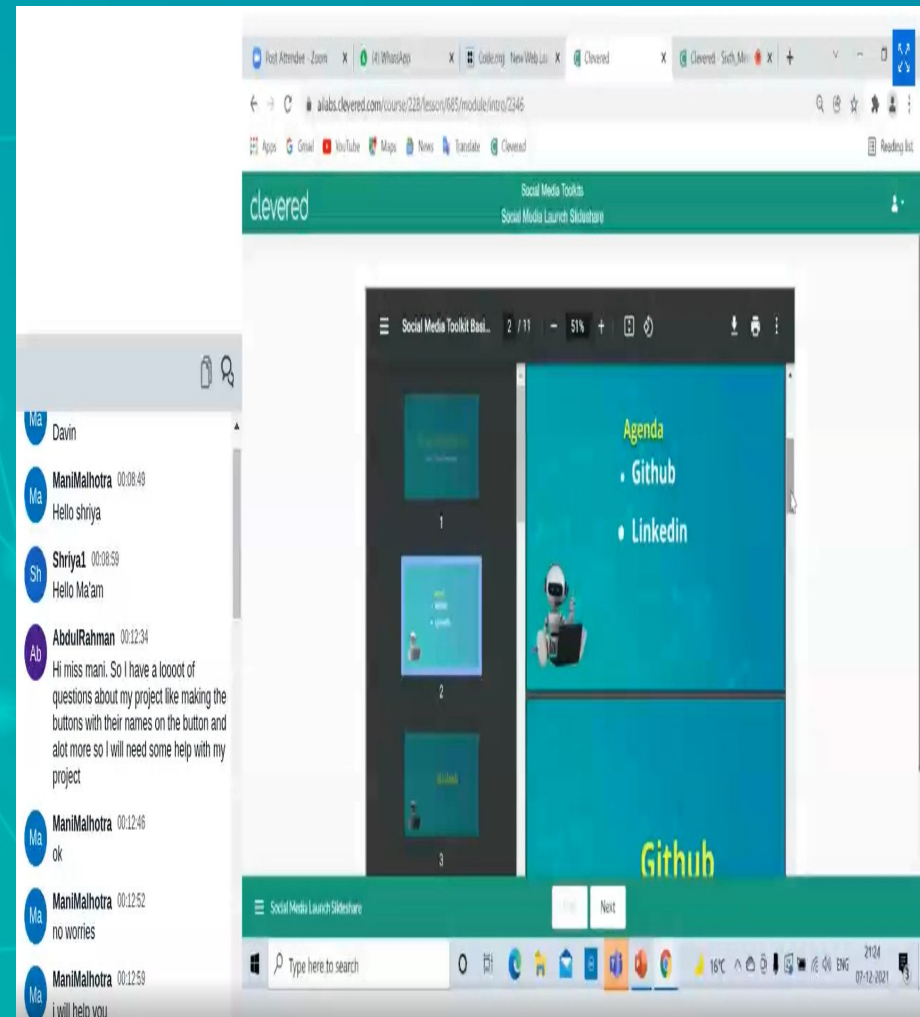

About Me..

My name is Manaal Tafseer. I am 14 years old and in year 10. I'm from India but I live in the U.A.E. I go to The Winchester School – Jebel Ali, Dubai.

About My Internship with Clevered..

My internship with Clevered has been going well, I have successfully completed the project, which was a “How’s this...? Chatbot”. Every lesson we learn something new, ask doubts and have a good understanding of everything done.

About App..

(Here is an image that shows how Abby speaks "How scary!", and displayed a tiger; when last spoken was "tiger")

- A Chatbot that recognizes images and responds to what it sees. E.g. says "How cute" when the description includes words such as "kitten" or "puppy" but says "How scary!" when the description is a toy lion or tiger.
